

Grant application form

Call for projects 2025-2026

Welcome to the application form for the Greater Montreal Climate Fund's 2025-2026 call for decarbonization projects.

This call for projects aims to fund transformative, mobilizing, and innovative projects or initiatives that will help reduce greenhouse gas emissions in the Greater Montreal area. It also aims to support a wide range of climate solutions that can be replicated and scaled up for the greater benefit of communities in Greater Montreal.

For more information, [visit our website](#).

Apply for a grant in 4 steps

1	Check your eligibility.....	2
2	Present your project and organization	2
3	Demonstrate the relevance of the project.....	4
4	Submit the request before October 30, 2025.....	10

1 Check your eligibility

To apply, you must ensure that you are eligible. You can apply if you are:

- ✓ Universities, colleges, and educational institutions
- ✓ Municipal organizations
- ✓ State-owned corporations
- ✓ Registered charities
- ✓ Nonprofit organizations

[Visit our website](#) to confirm that your project is eligible.

2 Present your project and organization

2.1 Project information

Project title	
Project objective <i>100-150 mots.</i>	
Project location <i>Indicate the territory (e.g., address, district(s), or municipality(ies)).</i>	
Amount requested <i>Indicate the amount requested in connection with this call for proposals.</i>	
Amount(s) requested from other organizations and/or already obtained <i>Indicate the total requested or obtained.</i>	
Percentage of the project budget requested from the Climate Fund	
Total amount planned for the project	

2.2 Information about the organization

Name of organization	
----------------------	--

Year of creation	
Address	
Zip code	

2.3 Information about the project team

2.3.1 Contact person 1

Name	
Job title	
Phone number	
Email address	

2.3.2 Contact person 2

Name	
Job title	
Phone number	
Email address	

3 Demonstrate the relevance of the project

3.1 Describe the main objectives of the project and the expected impacts once the project is completed.

Maximum 500 words.

3.2 Indicate how the project will reduce GHG emissions and how you plan to measure this reduction (methodology used, application).

Maximum 300 words.

3.3 Indicate what co-benefits the project will bring.

E.g. Strengthening knowledge, mobilizing stakeholders, transforming practices and behaviors, improving quality of life, climate resilience.

Maximum 300 words.

3.4. Indicate how the project takes into account the principles of equity, inclusion, and reconciliation.

Maximum 300 words.

3.4 Explain how the project is structuring, mobilizing, and innovative.

Three questions to guide the answer:

1. Is the project part of a long-term transformation vision?
2. Does the project introduce new practices, new ideas, new methods into a community, an original adaptation, or a scaling up of an existing solution?
3. After its initial implementation, how do you intend to ensure the project's sustainability?

Maximum 500 words.

3.5 Indicate whether and how your project could be replicated and scaled up across the Greater Montreal area.

Ex. Transfer of knowledge and expertise, development of reusable tools, data, and materials, mobilization and development of partnerships, mechanisms for sharing and disseminating results, etc.

Maximum 500 words.

3.6 Specify the extent to which the project will generate multiplier effects and catalyze other initiatives or investments (project leverage effect).

Two questions to guide the answer:

1. Will the project mobilize additional resources from other sources or partners? (e.g., financial, human, material resources).
2. Does the project stimulate the local economy or create opportunities for other actors? (e.g., job creation).

Maximum 300 words.

3.7 Introduce the key members of the project team and their relevant expertise for the implementation of the project.

If you have any partnerships or resources that will support you in the project, this is the place to mention them.

Maximum 500 words.

- 3.8 Please attach the timeline for the project covered by this grant application, with clear start and end dates—regardless of whether this grant application covers the entire project or just part of it.
- 3.9 Please attach an updated version of the project budget and a breakdown of expenses associated with the grant application (including a list of funders and the amount of their contribution).
- 3.10 Please provide any additional information deemed relevant to the project.

Maximum 300 words.

- 3.11 Optional / Please attach up to two other documents that you consider relevant.

E.g., letter of support from another organization, proof of contribution from partner(s), etc.

- 3.12 Signature et date

By signing this form and sending it to us, you are submitting a grant application.

Signature :

Date :

Please note that this grant application does not constitute a contract, a relationship between your organization and ours, or a promise of support from the Greater Montreal Climate Fund, its employees, partners, or administrators.

4 Submit the request before October 30, 2025

4.1 Make sure the application file is complete

The application file must contain:

- ✓ This completed and signed form
- ✓ An updated version of the project budget (including a list of donors and the amount of their contributions)
- ✓ A project schedule with clear start and end dates – regardless of whether this grant application covers the entire project or just part of it
- ✓ A maximum of two other documents that you deem relevant (e.g., letter of support from another organization)

4.2 Send us your complete application

- By email, at subventions@fondsclimat.com
- By mail, to the address 51 Sherbrooke Street West, Montreal, QC H2X 1X2

If you need assistance submitting your request, please write to us at subventions@fondsclimat.com.

Bonne chance !
